

Official 2.5-Minute Product Demo Video Script, Screen Storyboard & Voiceover

Platform: Casjoe BOS / SaaS Enterprise Suite

Target Length: 2 Min 30 Sec (150s)

Focus: SME Operational Impact & Autonomous AI

Resolution: 1080p 60fps (16:9)

TARGET DURATION

2m 30s (150 sec)

TARGET AUDIENCE

Grant Evaluators & Reviewers

CORE INNOVATION

Autonomous AI Office + ERP

KEY PROBLEM SOLVED

SME Software Fragmentation

1. Master Timeline & Demonstration Flow

Paced for optimal evaluator retention

Timestamp	Scene & Focus Area	Live Platform Features Demonstrated	Grant Evaluation Objective
0:00 – 0:25 (25s)	Scene 1: Entry & Executive Dashboard	Google Auth, Executive Ecosystem Dashboard, Cori AI Live Briefing, Instant ON/OFF Modularity	Validates high TRL, production-ready UX, clean multi-tenant architecture.
0:25 – 0:55 (30s)	Scene 2: Core Business Operations	Casjoe BOS (ERP), Multi-currency Invoicing, Visual CRM Kanban Pipeline, Staff Attendance/HR	Demonstrates replacement of 10+ disconnected tools into 1 unified platform.
0:55 – 1:35 (40s)	Scene 3: Autonomous AI Office	The AI Office, AI Sales Manager, AI Accountant, Human-in-the-Loop Action Queue & Approvals	Proves technological innovation: autonomous execution with strict human governance.
1:35 – 2:10 (35s)	Scene 4: Key SME Workflows	Casjoe Pay, Instant Virtual USD Cards (StroWallet), Smart Payment Links & Invoices	Solves acute emerging-market barriers: cross-border vendor payments & revenue collection.
2:10 – 2:30 (20s)	Scene 5: SME Impact & Vision	Cost reduction analysis (\$500+/mo saved), Scalability metrics, Theme switch, Closing pitch	Delivers strong commercial viability and social/economic SME empowerment value.

0:00 – 0:25 Scene 1: Frictionless Access & Executive Ecosystem Dashboard

Goal: Hook evaluators with live operational maturity

VISUAL CUES & CLICK FLOW

- Start directly on /login; click Google One Tap to show frictionless 1-click entry.
- Arrive on /dashboard (Executive Ecosystem Dashboard).
- Hover over the glowing **Cori AI Executive Briefing** banner showing live telemetry (active employees, CRM counts, daily intelligence).
- Pan across the 9 ecosystem cards; toggle one glowing **ON/OFF pill switch**.

Active Path: <https://casjoe.com/dashboard>

VOICEOVER SCRIPT (SPEAK WITH CONFIDENT, ENERGETIC CADENCE)

DURATION: 25S

"For millions of small and medium enterprises across Africa and emerging markets, running a business means juggling over ten fragmented, costly software tools. Welcome to Casjoe Biz—the unified Business Operating System designed to run an entire enterprise from a single pane of glass. From the moment a business owner logs in, our Executive Dashboard provides a real-time pulse of operations, powered by Cori AI, which synthesizes financial, customer, and staffing data into instant daily executive intelligence."

0:25 – 0:55

Scene 2: Core Business Operations (Casjoe ERP / BOS)

Goal: Prove end-to-end operational mastery (Finance, CRM, HR)

VISUAL CUES & CLICK FLOW

- Click **Launch Module** on *Casjoe BOS* (navigates to `/erp`).
- Navigate to **Finance & Invoices** (`/erp/finance/invoices`); click an active invoice, showing multi-currency support and direct public pay link.
- Click **CRM Pipeline** (`/erp/crm/pipeline`); drag a prospect deal card smoothly from 'Contacted' to 'Proposal Sent'.
- Briefly click **Staff Attendance** (`/erp/employees`); show 1-click check-in/check-out and payroll summaries.

ON-SCREEN OVERLAY & URL

Text Overlay: *Unified Operations: Invoicing • Sales CRM • HR & Attendance*
Active Path: `/erp/finance • /erp/crm/pipeline`

VOICEOVER SCRIPT

DURATION: 30S

"At the core of Casjoe is our enterprise ERP suite. SMEs manage their end-to-end operations without switching tabs: issuing multi-currency estimates and invoices, tracking deals across a visual CRM sales pipeline, and managing staff onboarding, attendance, and payroll. What used to require three separate, expensive subscriptions is fully synchronized in Casjoe from day one."

0:55 – 1:35

Scene 3: The Autonomous AI Office & Human-in-the-Loop Governance

Goal: Highlight core technological novelty and AI depth

VISUAL CUES & CLICK FLOW

- Navigate to `/ai-office` (**The AI Office** dark cybernetic interface).
- Show **Office Activity Stream** logging automated multi-agent actions.
- Click **AI Sales Manager**: Ask the agent to draft a proposal follow-up for a pending CRM deal. Watch the AI generate the response using live CRM context.
- Click **AI Accountant**: Point out cash flow burn alerts and automated ledger insights.
- Click **Action Queue** (`?agent=queue`): Show a pending AI decision; click the green **Approve** button to demonstrate human-in-the-loop validation.

ON-SCREEN OVERLAY & URL

Text Overlay: *Autonomous AI Office • Specialized Agents • Human-in-the-Loop Control*
Active Path: `https://casjoe.com/ai-office`

VOICEOVER SCRIPT

DURATION: 40S

"Here is where Casjoe leaps ahead of traditional ERPs: The AI Office. Small business owners can rarely afford dedicated sales directors, accountants, or 24/7 customer support teams. In Casjoe, they deploy autonomous AI employees. Our AI Sales Manager identifies cold leads and drafts personalized proposals; our AI Accountant tracks receivables and flags margin leaks; and our Automation Studio executes cross-module workflows. Crucially, our Action Queue maintains human-in-the-loop governance—ensuring business owners stay in control while their digital workforce handles the heavy lifting."

1:35 – 2:10

Scene 4: Critical Workflows — Casjoe Pay & Virtual Dollar Cards

Goal: Solve critical emerging-market payment & FX frictions

VISUAL CUES & CLICK FLOW

- Navigate to **Casjoe Pay** (/pay); showcase dual-currency wallet (NGN / USD balances).
- Click **Virtual Cards** (/pay/cards): Highlight instant virtual Mastercard/Visa card generation for global SaaS & cloud spend.
- Click **Reveal Card Details**: Show secure PIN modal displaying card credentials for foreign vendor payments.
- Quick glance at **Payment Links** (/pay/links): Show a customer-facing payment gateway collecting real-time revenue.

ON-SCREEN OVERLAY & URL

Text Overlay: *Embedded Fintech: Dual-Currency Wallets • Instant Virtual USD Cards*
Active Path: <https://casjoe.com/pay/cards>

VOICEOVER SCRIPT

"Let's look at one critical SME bottleneck: cross-border payments and digital receivables. With Casjoe Pay, businesses generate instant virtual USD cards to pay for essential global tools, cloud hosting, and digital ads without being blocked by domestic card limits. Simultaneously, merchants can generate custom smart payment links and forms that settle directly into their wallet, closing the loop between sales, accounting, and cash collection."

DURATION: 35S

2:10 – 2:30

Scene 5: Tangible SME Benefits, Economic Impact & Vision

Goal: Close with unforgettable ROI, social impact, and scale

VISUAL CUES & CLICK FLOW

- Return to the **Executive Dashboard** (/dashboard).
- Toggle the floating theme widget (Dark to Light and back) to show high product polish.
- Highlight active organization badge, currency, and enterprise telemetry status ("All Systems Online 99.99%").
- Transition to clean branded closing slide featuring Casjoe Biz logo, website, and contact information.

Text Overlay: *Democratizing Enterprise Intelligence & Fintech for 40M+ Emerging SMEs*
Website: casjoe.com • **Contact:** founder@casjoe.com

VOICEOVER SCRIPT

"By replacing disjointed subscriptions with an all-in-one, AI-powered ecosystem, Casjoe saves small businesses hundreds of dollars monthly and countless hours of administrative friction. We aren't just digitizing small businesses—we are empowering them to scale sustainably with enterprise-grade intelligence. Thank you for your support as we build the operating system for the next generation of global businesses."

DURATION: 20S

Grant Reviewer Rubric Alignment

Key Scoring Dimensions

Grant Evaluation Criteria	How This Demo Video Proves It	Video Timestamp
Technological Readiness (TRL 7-8)	Live production SaaS with functional database, authenticated sessions, responsive UI, zero placeholders.	Full Video (0:00 - 2:30)
Innovation & Intellectual Depth	Specialized AI employees with continuous telemetry and human-in-the-loop action approval queues.	Scene 1 & 3 (0:10 - 0:25, 0:55 - 1:35)
Commercial Viability	Dual revenue streams: recurring modular SaaS licenses + fintech transaction fees on wallets and cards.	Scene 1 & 4 (0:15 - 0:25, 1:35 - 2:10)
Social & Economic Impact	Saves emerging market SMEs \$500+/mo, removes foreign exchange barriers, and automates administrative burden.	Scene 4 & 5 (1:35 - 2:30)

Technical Recording & Submission Checklist

✓ **Resolution:** Record at 1080p (1920×1080) at 60fps in 16:9 aspect ratio.

✓ **Audio Quality:** Crisp microphone, quiet acoustics; background music at max 8-10% volume.

✓ **Database Prep:** Ensure 3-5 customers, 2 invoices, and 1 queued AI action exist before recording.

✓ **Hosting Link:** Set Loom / YouTube (Unlisted) permissions to "Anyone with the link can view".
